

The Community

Our practice is ideally located in the heart of downtown Miami Shores, a beautiful bayside community in northeast Miami Dade, easily accessible from throughout the greater Miami-Fort Lauderdale area. We are directly on Miami Dade bus routes, across the street from the Village government offices and police station. A library, shops and restaurants are within one or two blocks. This area has traditionally been a health care hub, home to a wide variety of medical offices, specialty practices and health services. Barry University and North Shore Medical Center are nearby.
